

## Offshore Oil Spill Response System

We can offer containerized “RO-Boom” emergency response system.

The system consists of 4 units each holding 250-meter oil containment booms.

Specification of booms:

Total length:	1000mtr.
Total height:	2000mm
Draught:	1100mm
Freeboard:	600mm

Various skimmers are available on request depending on scope of job and type of oil.
