

Offshore Oil Spill Response System

We can offer containerized “RO-Boom” emergency response system.

The system consists of 4 units each holding 250-meter oil containment booms.

Specification of booms:

Total length: 1000mtr.
Total height: 2000mm
Draught: 1100mm
Freeboard: 600mm

Various skimmers are available on request depending on scope of job and type of oil.
